

Year 4 Homework Autumn Term

Polar Explorers Homework

Date set: Thursday 8th November 2018

Date due: Friday 14th December 2018

This half-term's topic is 'Polar Explorers'. We have already started looking at locating the polar regions using atlases as well as learning about the conditions experienced in these areas.

Your homework task is to produce your own project on the topic of 'Polar Explorers.' It could be focusing either on one region or on both. Be as creative as you like and to help get you started, there are a few ideas below.

If you would like any help or advice with your homework project, please ask your class teacher.

You could:

- Create a fact file about an animal that lives in a polar region.
- Learn about any expeditions to a polar region.
- Research and design your own expedition equipment and plan.
- Write a diary entry about visiting a polar region.
- Draw pictures to show an Arctic landscape.
- Research and complete a comparison between the North and South Poles.

Or you could complete an idea of your own!

We look forward to seeing your project!
